

Agusta A109 Airframes

We have five Agusta A109 airframes available for immediate sale, these are part of a larger package that have recently been acquired by Air & Ground.

The airframes are all ex-Italian Police and are in very good condition. All engines have been removed, which may be available for sale shortly.

Please take your time to view the photos and logbooks for each Agusta A109 airframe on our website and let us know if you have any queries: sales@airandground.com

A single package sale for all five airframes or individual sales are welcome.
